Things are different in Middle School

SEPTA knows that parents (and children) have many questions and concerns about this upcoming transition.

This transition presentation and Q&A session will be led by Special Education staff from North Middle School AND South Middle School to help ease this process and empower you and your children to enter and navigate Middle School with confidence!

Special Education staff will discuss:

- Middle School Special Education programs & services including after school options (clubs, recreation etc.) and peer mentors
- Who develops the IEP for this transition and how the IEP will be implemented
- Challenges specific to Middle School
- Who oversees a Middle School student's Special Education program?
- Who are the key Special Education contacts in Middle School?

Remember.....Involved parents ensure the best results for our children!
